SPECIAL NOTE ON HIV REPORTING

The Maryland HIV/AIDS Reporting Act of 2007 became law on April 24, 2007. The law expanded HIV/AIDS reporting and required that HIV cases be reported by name. The reporting period presented in this report includes the first full year of the new reporting, however, most of the tables and figures are as of the end of code-reporting and are unaffected by this change. Section X has been modified to include the changes and future reports will have additional modifications. For additional information on HIV reporting please visit the AIDS Administration web site at the above address.
